

Natural Gas Smells Bad for a Very Good Reason

Gas Natural Huele Mal por una Buena Razon

SOUTHWEST GAS

swgas.com/safety

Did you know?

In its untouched state, natural gas is actually odorless. For safety reasons, Southwest Gas adds an element called mercaptan, which emits an odor similar to sulfur or rotten eggs.

If you suspect a gas leak, **leave the area immediately**, and from a safe place, call **911** and Southwest Gas at **877-860-6020**, day or night.

¿Sabia que?

En su estado puro, el gas natural no tiene olor. Por razones de seguridad, Southwest Gas agrega un elemento llamado “mercaptano” que emite un olor similar a azufre o a huevos podridos.

Si sospecha una fuga de gas, **abandone el área inmediatamente**, y desde un lugar seguro llame al **911** y a Southwest Gas al **877-860-6020**, de día o de noche.
